Collaging Accessories

From the late 1930's through the mid 50's, Miriam Haskell and several other nationally known jewelry designers used wire to attach beads, charms, stones, metal filigrees, and other ornaments to brass mesh screens like those shown below. The mounting plate was pronged onto the screen to hide the wires and cement used to secure the decorations. Their jewelry is now sought after as collector's items.

2684FD 40x49 2-part brass butterfly has domed collaging screen and a flat back piece with 4 prongs to secure the screen. We suggest decorating a stiff wire if antennae are desired. \$23.00/10; \$3.45 ea

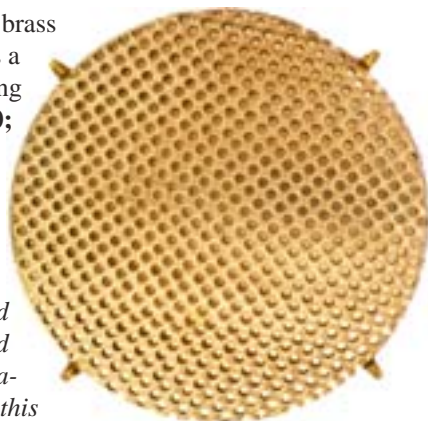

10061FD Brass screw-on ear finding with domed collage base, 4 prongs.
11mm: \$6.75/10; \$1.05 ea
17mm: \$7.50/10; \$1.15 ea

2765FD 12mm tubular brass mesh can be a base for collaging or for beadwork. \$37.00/10 ft; \$5.55 ft.

Published prices are subject to change without notice.

2679FD 56mm brass domed cage has a 4 prong mounting plate. \$32.00/10; \$4.80 ea *See Pg. FD-31 for bola slides, or FD-28 for pinbacks that can be cemented or fusion welded (call for information) to back of this plate.*

22mm domed caging screen has 4 prong mounting plate.
