

## WigJig Olympus™

**8284TS** 5 inch clear acrylic board has 481 holes and 20 removable pegs. Lay the WigJig Olympus on top of any picture or design and set the pegs in place to create endless forms. Includes 5 templates for finishing pieces: *Flower, Loopy chain, Endless loops, Lantern and Trio of Chains.* **\$59.00 ea**

## Handi-Bender™ Wire Jig

**9278TS** Handi-Bender™ wire bending jig is designed to handle steel and softer wires up to .25 inch in diameter. The jig is rugged die cast aluminum and includes pins for bending circles, angles, spirals, coils, loops and curves. Designed to mount on a table, board or in a vise, instructions include bending curves, bending angles and bending eyes. *(Illustration reduced.)* **\$15.00 ea**

## Wyr Knitter™

**9557TS** A new and fun way to accent your beadwork, Wyr Knitter™ knits thin stitches in minutes. Knitted wire tubes are flexible, lightweight and can be beaded, pressed flat, wrapped, compressed, stitched, threaded and stuffed (illustrated here with a tumbled stone and filigree bead cap). Kit includes Wyr Knitter™ body & handle, weighted clip, 20 yards of 30 gauge wire, a spool clip, instructions and five patterns. **\$24.95 ea**

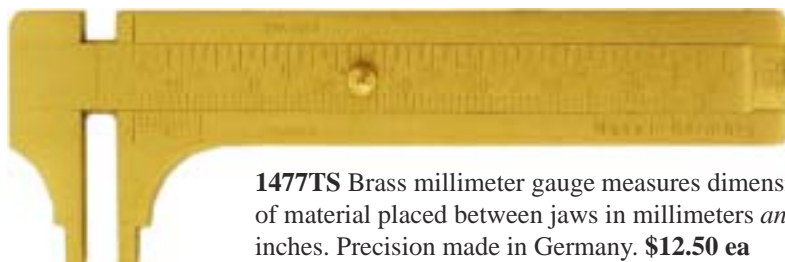

## Jump Ring Opener

**8271TS** Handy finger tool makes opening and closing jump rings simple. Slide the adjustable ring over your finger and insert the jump ring into the screwlike head. Give a slight twist and the jump ring will open. Give a slight twist in the opposite direction and jump ring will close. **\$3.75 ea**

## Millimeter Gauges

**1477TS** Brass millimeter gauge measures dimensions of material placed between jaws in millimeters and inches. Precision made in Germany. **\$12.50 ea**  
*Illustration is actual size.*

**6327TS** Inexpensive, easy to read plastic caliper (millimeter gauge) is 8-1/4" long and measures outside and inside diameters and depth up to 159mm or 6 inches. *(Illustration reduced.)* **\$5.00 ea**
